## PROFESSIONAL EXPERIENCE

---

### Web Developer09/2025 – Present | Meerut

- Built and shipped production-grade websites for society events, hackathons, recruitment, and internal tooling
- Developed TRIKON 3.0 — a full-stack hackathon platform managing 700+ participants with QR-based check-in
- Integrated an AI chatbot (Trix) using LangChain, FAISS vector search, Groq LLM, and Google Embeddings
- Implemented a bulk email system with Nodemailer supporting automated participant communication
- Architected the Next.js frontend with SSR-safe components, fixing hydration and carousel rendering issues
- Managed deployment on Vercel with environment-specific configs and CI/CD via GitHub Actions

## PROJECTS

---

### Broke Together

05/2025 – 06/2025

Expense Manager | [GitHub](#) | [Live Demo](#)

- Built a full-stack expense sharing web app to help groups track and split shared expenses in real time
- Implemented secure authentication using Firebase Auth with protected routes and session handling
- Developed dynamic expense and notebook management with real-time database synchronization
- Designed responsive UI using Tailwind CSS and reusable component architecture
- Added report generation and structured transaction tracking for better financial visibility
- Deployed with production-ready Next.js configurations and server-side rendering

### Trikon 3.0

03/2025 – 04/2025

Full-Stack Hackathon Platform | [Live Demo](#)

- Built end-to-end hackathon management: participant registration, team formation, QR check-in, and admin dashboard
- Integrated Trix — an AI chatbot powered by LangChain, FAISS vector search, and Groq LLM for participant queries
- Automated bulk email via Nodemailer for confirmations, updates, and post-event communication
- Stack: Next.js, TypeScript, MongoDB, LangChain, Groq LLM, FAISS, Nodemailer — deployed on Vercel

## SKILLS

---

**Languages:** JavaScript, TypeScript, Python, Java

**Frameworks & Libraries:** Next.js, React, Flask, Tailwind CSS, LangChain, FAISS, Nodemailer, REST APIs

**AI / LLM :** Groq LLM , LangChain , FAISS , Google Gemini , Claude

**Databases:** MongoDB, Firebase

**Tools & Platforms:** Git, GitHub, Vercel, Linux/Ubuntu, CI/CD, GitHub Actions, Render

## EDUCATION

---

**Meerut Institute of Engineering and Technology**2024 – 2028

B.Tech — Computer Science Engineering | 5th Semester | CGPA: 7.5
